Reference: Amended October Quarterly Report (07/01/2011 to 09/30/2011)

Dear Mr. Kaye:

This letter is in response to your correspondence dated November 28, 2011. During the 2012 election cycle, this Committee has received numerous contributions from numerous individuals. The great majority of these individuals have not contributed amounts that aggregate to the \$200.00 threshold requiring the Committee to report them individually in the above-referenced report, or otherwise. As a result, the un-itemized amounts that you referenced in your correspondence to this Committee are correct.

Regarding the enumerated employment and occupations for persons individually reported, the Committee uses its best efforts to comply with the federal regulations regarding collection and reporting of this information. All of our contribution solicitations request employer and occupation information, and inform the contributor that by federal law we are required to request this information. In addition, in online contributions, the contributor expressly agrees to the requirements set forth by the Commission for individuals to make legal contributions.

Contributions are reviewed for a variety of reasons, including a determination of whether the information provided on employment and occupation is adequate. If a contributor does not provide acceptable employment and occupation information, we generate a written request within 30 days. The letter specifies the federal regulations requiring this information. In this letter, the Committee does not request any additional contribution. A self-addressed envelope is provided. Below is an example of the letter provided to contributors if additional information is required.

When a report with the FEC is filed, including the report cited above, the report contains all submitted information regarding employment and occupation, whether that information is submitted at the time of the contribution or in response to the follow-up inquiry. If the inquiry is outstanding, then requested information is documented in the report. When such information is received, then the report is amended.

In sum, our Committee abides by the procedures that we have adopted to satisfy the best efforts standard established by the Commission.

Please contact us if you need any additional information.

Sincerely,
